Company Bio

Aetos Aero, established in 2016 by former pilot Mike Vucetic, began by providing specialized support to European companies operating American aircraft, leveraging decades of aviation expertise. In June 2024, under the leadership of Anshul Puri, the company expanded its mission to include supplying the United States military with critical aviation solutions, enhancing operational readiness for future conflicts. Shortly after, Evan Patrick joined the team, bringing expertise in ground support capabilities to further strengthen **Aetos Aero's** offerings. Today, Aetos Aero is a trusted partner for both military and commercial aerospace clients, delivering high-quality aviation support and logistical solutions.

Core Competencies

- ★ **Aerospace Parts Sourcing & Supply** – Providing critical components for commercial and military aircraft.
- ★ **Ground & Auxiliary Power Solutions** – Supplying Ground Power Units (GPU) and Auxiliary Power Units (APU) for aviation and military applications.
- ★ **Mission-Critical Military Support** – Delivering essential parts and solutions for military operations.
- ★ **Aftermarket Aerospace Solutions** – Offering high-quality aftermarket components for aircraft maintenance and repair.
- ★ **Regulatory Compliance & Quality Assurance** – Adhering to ASA-100 and ISO industry standards.
- ★ **Customized Military & Government Solutions** – Tailoring aviation support to meet specific operational requirements.

Differentiators

- ✓ **ASA-100 Certified** – Ensuring strict adherence to aerospace quality and regulatory standards.
- ✓ **Specialized Sourcing Expertise** – Proven ability to locate and supply hard-to-find aerospace and military parts.
- ✓ **Dual-Sector Experience** – Strong track record supporting both commercial and military aviation clients.
- ✓ **Extensive Global Network** – Established partnerships with suppliers and OEMs for reliable sourcing.
- ✓ **Agile & Innovative Team** – A dynamic, forward-thinking team focused on adaptability and cutting-edge solutions.
