COMPANY BIO

H&S Excavating and Grading LLC is a family-owned business specializing in full-site development and underground utility installations, including water, sewer, and storm drainage. Established in Butler County, Ohio, in 2021, we have quickly grown by combining cutting-edge technology with a hands-on, safety-first approach. Our dedication to precision, efficiency, and compliance ensures successful project execution for commercial, municipal, and infrastructure developments.

CORE COMPETENCIES

- ◆ **Full-Site Development:** Comprehensive land preparation, grading, and infrastructure implementation for commercial and public sectors.
- ◆ **Underground Utility Installation:** Expert installation of water, sewer, and storm drainage systems to meet industry standards and regulatory requirements.
- ◆ **Crossover Sleeves:** Precision installation of conduit and piping systems for efficient underground utility routing.
- ◆ **Advanced Technology & Equipment:** Utilizing state-of-the-art machinery and digital solutions to enhance accuracy, minimize rework, and improve project timelines.
- ◆ **Project Management & Compliance:** Ensuring adherence to safety protocols, environmental regulations, and industry best practices.

DIFFERENTIATORS

- ★ Safety-first culture prioritizing team and site well-being.
- ★ Advanced technology and equipment for optimized performance.
- ★ Family-owned with a hands-on, client-focused approach.
- ★ Reliable, deadline-driven execution minimizing rework.
- ★ Adaptable solutions for commercial and infrastructure projects.
