Company Bio

Titan Service and Equipment Repair, LLC specializes in fluid equipment services, offering expert repairs for pumps, engines, and fusion machines. With a fully licensed and insured facility in Clayton, NC, we provide both in-shop and onsite repair solutions. Our team brings over 32 years of combined experience in the water, wastewater, and aggregate industries, ensuring reliable service with quick turnaround times.

Core Competencies

- **Fluid Equipment Repair:** Comprehensive maintenance and repair for various fluid handling systems.
- **Pump Repair:** Expertise in servicing water pumps, sewer pumps, and diesel-driven pumps for dewatering and bypassing.
- **Engine Repair:** Skilled repairs for industrial and heavy-duty engines used in fluid equipment.
- **Fusion Machine Services:** McElroy fusion capabilities for pipe sizes ranging from 6" to 24".

Differentiators

- Over 32 years of combined industry experience in water, wastewater, and aggregate systems.
- In-house and mobile repair services for convenience and efficiency.
- Fleet of diesel-driven pumps (4"–12") and McElroy fusion machines for specialized projects.
- Proven growth track record, expanding operations and customer base while enhancing service capabilities.
