

COMPANY BIO

Founded in late 2024, **DGS Contracting, LLC** provides comprehensive construction and disaster response services. With expertise in site preparation, land clearing, and infrastructure development, we deliver efficient solutions for residential, commercial, and emergency response projects. Our team is committed to high-quality execution and tailored services that meet the unique needs of each project.

CORE COMPETENCIES

- **Site Services & Land Clearing** – Preparing land for development, including grading, seeding, and brush removal.
- **Demolition & Debris Removal** – Safe and efficient demolition, cleanup, and site restoration.
- **Excavation & Drainage Solutions** – Installation of culvert pipes, water lines, and erosion control measures.
- **Right-of-Way & Roadway Services** – Clearing access roads, constructing interior roads, and fire lane maintenance.
- **Landscaping & Irrigation** – Enhancing property usability with seeding, mulching, bush hogging, and food plot installation.
- **Disaster Response & Recovery** – Rapid mobilization for storm cleanup, emergency site clearing, and infrastructure repair.

DIFFERENTIATORS

- **Locally Owned & Operated**
Deep community ties with a hands-on, customer-focused approach.
- **Versatile Capabilities**
Expertise in both construction and disaster response services.
- **Efficient & Responsive**
Fast project turnaround with the ability to mobilize quickly for urgent needs.
