COMPANY BIO

At **Trident**, we provide revolutionary, environmentally safe cleaning technologies that outperform chemicals found in all industries. Safe for all surfaces our products are free of acids, solvents, VOCs, butyl, and hazardous or toxic chemicals. They deliver equal or superior residue-free cleaning performance compared to harmful alternatives. Approved by the U.S. military and various government agencies worldwide, our solutions meet or exceed EPA safety and performance standards. With multiple certifications and international patents, **Trident** technologies stand out globally. Our products outperform competitors across industries and have been approved by commercial aircraft manufacturers, the U.S. Navy, and Coast Guard. They are also on NASA and the U.S. Air Force's Procurement Priority List and were used to clean the Space Shuttle. **Trident** products empower the military and other government agencies with cutting-edge sustainable solutions helping them meet their green mandate and protect our future.

CORE COMPETENCIES

- ★ **Torque** - OEM approved All-In-One Wash
- ★ **Fortis** - All Purpose Cleaner & Degreaser
- ★ **SynClean HD & LF** - Industrial Cleaner & Degreaser/Aeronautic Cleaner

DIFFERENTIATORS

- ✓ **Patented Innovations**
 - Exclusive distributor of SynTech, the world's first synthetic acid technology
 - Full-strength replacement for hazardous acids with zero harm to personnel, equipment, or the environment
- ✓ **Unrivaled Approvals and Certifications**
 - Recognized as a Champion under the EPA's Safer Choice SDSI program
 - Approved by OEM industry giants and government agencies globally
- ✓ **Sustainability Leadership**
 - Exceeds EPA Safer Choice requirements and biodegradable per OECD guidelines
 - Manufactured in USDA BioPreferred and Green Circle certified facilities
- ✓ **Exceptional Performance**
 - Proven success in high-stakes applications like NASA and U.S. military cleaning needs
 - A trusted choice on the U.S. Air Force's Procurement Priority List
